About us

In the market since 1982, *BC San Michele* produces a wide range of lighting products which can be adapted to many varied spaces and styles.

Forty years of artisan experience, combined with up-to-date technology developed and expanded over time, help the company create high quality products with refined lines.

All creations purchased by the customer carry with them the commitment of the company and of all the people who took part in its realization preserving their memory and skill.

San Michele represents the continuation of the company's historical production and adds new items with updated decorative lines, keeping its philosophy unaltered in the use of noble materials worked with skillful craftsmanship.

Presente sul mercato dal 1982 la società BC San Michele produce una vasta gamma di prodotti di illuminazione destinati alle soluzioni più varie.

Con quarant'anni di esperienza artigianale, affiancata alla tecnologia che si è sviluppata e ampliata nel tempo, la ditta realizza prodotti di alta qualità e dalle linee ricercate.

L'oggetto che il cliente acquista porta con sé l'impegno dell'azienda e di tutte le persone che sono intervenute nella sua realizzazione e ne conserva in qualche modo la memoria.

San Michele rappresenta la continuazione della produzione storica dell'azienda e ne affianca nuovi articoli dalle linee decorative attualizzate, mantenendo inalterata la sua filosofia nell'utilizzo di materiali nobili lavorati con sapiente maestria artigianale.

Nebula

A line characterized by a band with linear crystals that illuminate the perimeter of the article with facets, completed by a base of opal glass that softens the light which descends downwards.

Linea caratterizzata da fascia con cristalli di forma lineare che illuminano di sfaccettature il perimetro dell'articolo completata da un vetro opalino che ammorbidisce la luce che scende verso il basso.

Alya

This decò-inspired line is characterized by an essential structure combined with blown glass with an elegant wavy effect obtained using antique non-circular plant molds of the Murano glass tradition.

Linea di ispirazione Decò caratterizzata da una struttura essenziale abbinata a vetri soffiati dall'elegante effetto ondulato ottenuti utilizzando vecchi stampi a fermo della tradizione vetraia muranese.

Altair

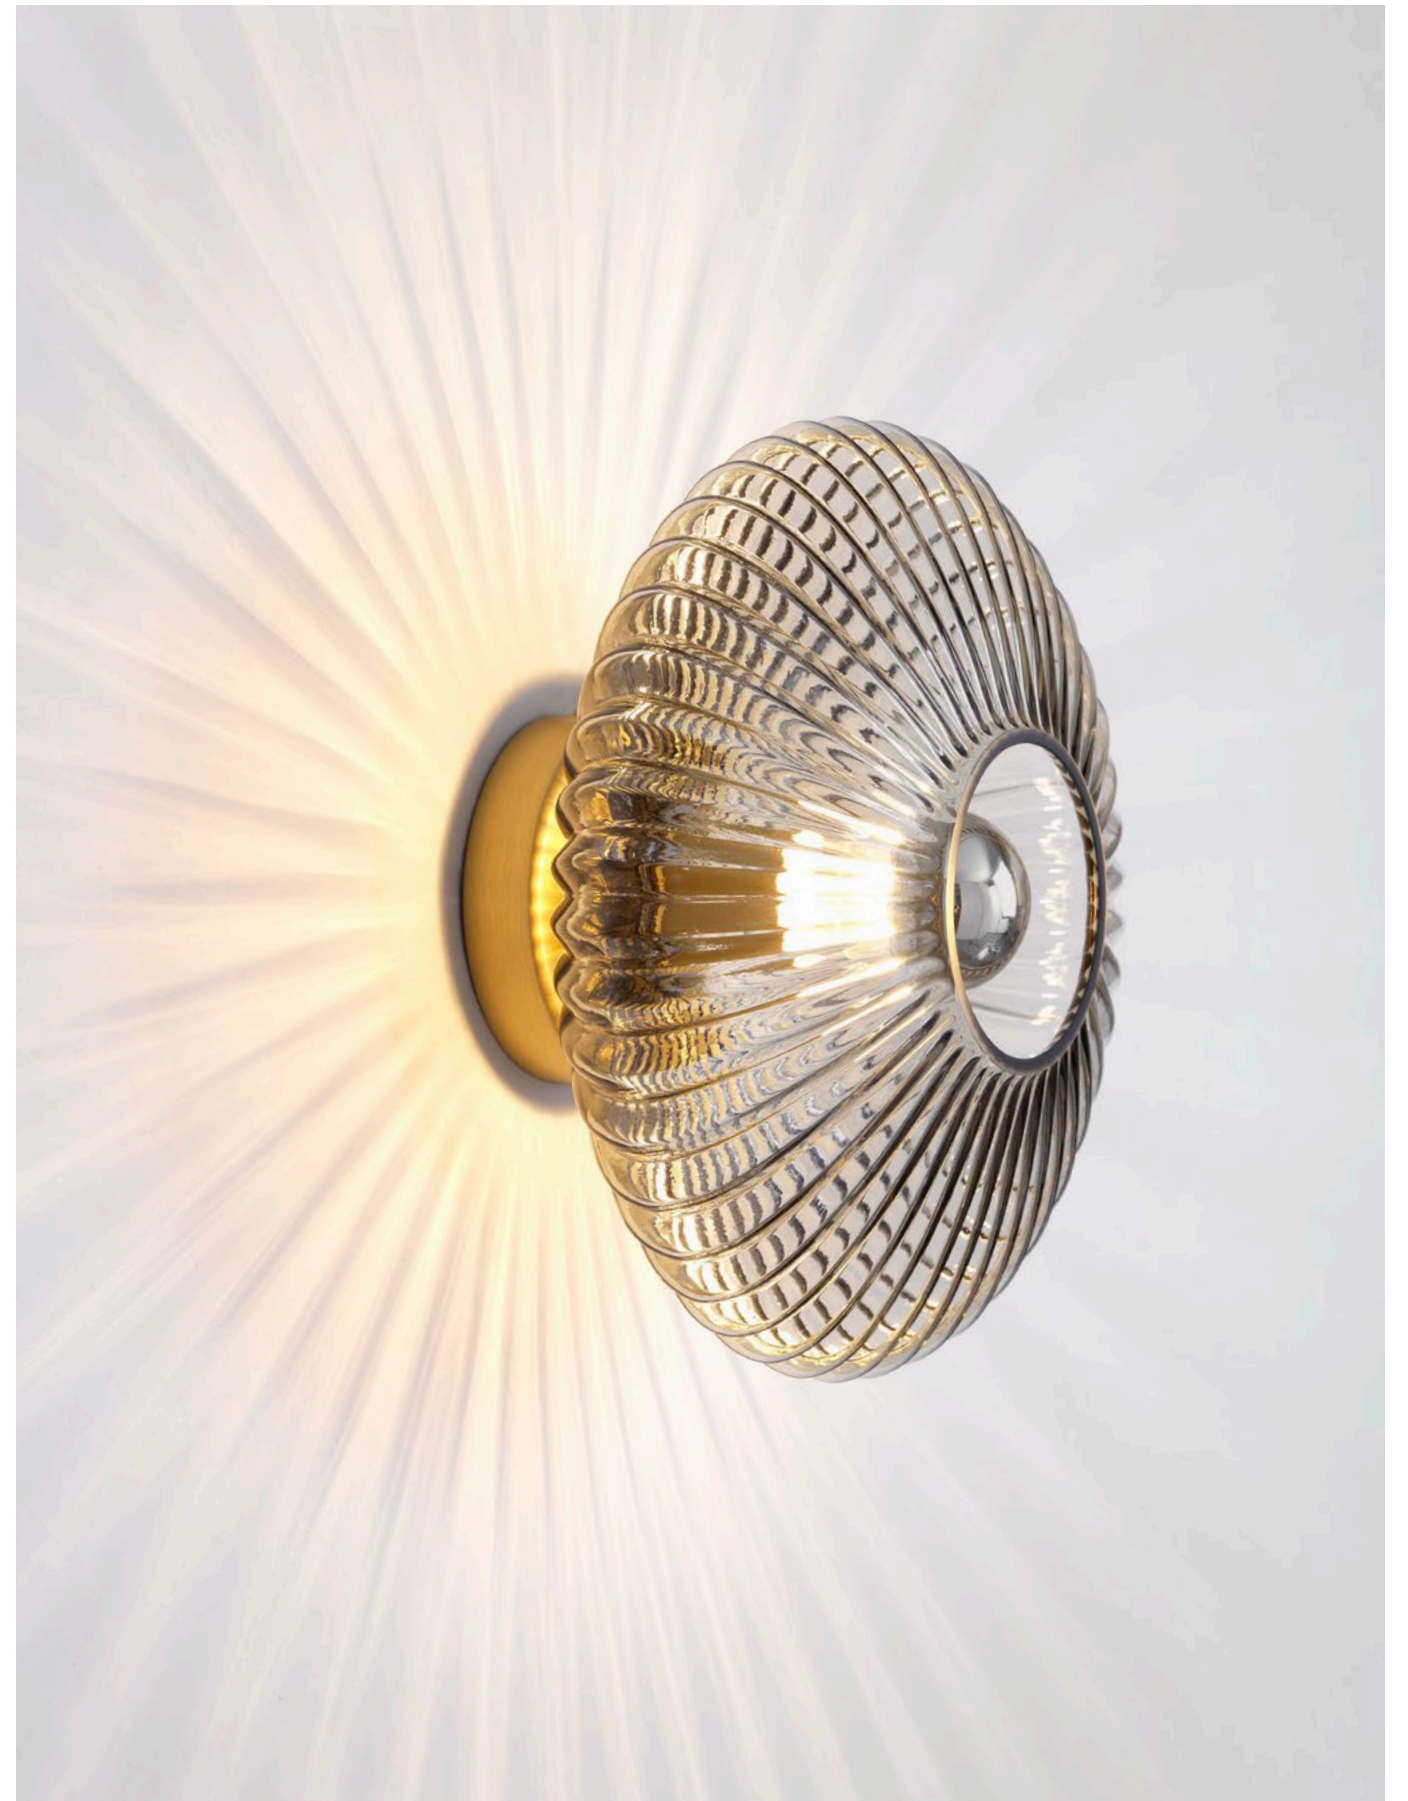

A beautiful article of large dimensions both for its proportions and for the glass used. Wavy glass with a flattened spherical shape, made using traditional historical molds of the Murano art of non-circular blown glass. The end result is a kaleidoscopic effect of light, shades and transparencies.

Articolo dalle grandi dimensioni, sia per le proporzioni che per i vetri utilizzati. Vetri ondulati di forma sferica schiacciata, realizzati utilizzando vecchi stampi storici dell'arte muranese del vetro soffiato a fermo. Il risultato finale è un caleidoscopico effetto di luce, sfumature e trasparenze.

Sonora

A soft sequence of curves obtained with artfully shaped brass tubes. The undulating movement that recalls sound waves gives this article a vibrant lightness.

Dolce sequenza di curve ottenute con tubi di ottone sagomati ad arte. Il movimento ondulatorio che richiama le onde sonore dona a questo articolo una leggerezza vibrante.

Tropici

This line is characterized by structures with essential lines and important geometric shapes. Items are completed by blown glasses made using antique non-circular plant molds of the Murano glass tradition. The faceted cylindrical shape of the glass creates elegant reflections.

Strutture dalle linee essenziali e forme geometriche importanti caratterizzano questa linea. Completano l'articolo vetri realizzati utilizzando vecchi stampi storici dell'arte muranese del vetro soffiato a fermo. La forma cilindrica sfaccettata del vetro crea eleganti riflessi.
